

## A Message from Father Gregory

### Easter Monday, April 21, 2025

Only yesterday Pope Francis gave his Easter blessing to us in St. Peter's Square. My mind can't help but recall Mother Teresa, who kept serving the Lord all the way until the end.

Pope Francis dies on Easter, for it is Easter Monday, the second day in the eight-day "Day" which begins on Easter Sunday, all one Easter "day". May the risen Lord Jesus receive him into His embrace.

And now Christ's Church will go on, as it has for over 2000 years, under the Holy Spirit's guidance. Now we support the leaders of the Church with our prayers as they discern the next successor to the Chair of Peter.

Christ is risen, alleluia!
